WHILE G. C. FISHES WORK IS PILING UP

IMPORTANT MATTERS AWAIT THE PRESIDENT.

Minister Bayard May Go to the Senate—Appointment of a New Embassador to Great Britain Among the Possibilities—Reciprocity News From the Capital.

WASHINGTON, Oct. 24.—When President Cleveland returns to this city he will find much business of great importance awaiting his attention. Probably the first important business to engage his attention will be the rendering of a decision in the Brazil-Argentine boundary dispute, determining the ownership of the Missiones territory. The action of the quadruple alliance will furnish some food for reflection although this government has declined to become a participant in the China-Japan war. But the fact that China has determined in advance to select Secretary of State Gresham as her arbitrator in the event of arbitration will of necessity make the United States prominent in the settlement of the oriental dispute. He will also have the report of the national strike commission, which is now being prepared, to consider and act upon. Then there is the awarding of an indemnity to be paid by the United States of Columbia to Italy for the murder of a citizen in that country, which matter was left to the President to be disposed of.

The Nicaraguan matter will take considerable careful thought, as several delicate diplomatic questions are involved. The question of reciprocity has, by the withdrawal of the special trade favors extended by Cuba and Brazil, been brought into prominence and its settlement may cause much serious thought.

The selection of a successor to Ambassador Bayard must be regarded as a possible contingency, as it is said that in the event of a democratic legislature being elected he will be chosen to succeed Higgins in the senate.

A large number of presidential postmasterships have recently become vacant by the expiration of commissions and must be filled. Of course, these and other appointments will not be announced until after Nov. 6, when the danger of making campaign enemies will have been passed.

Last, but not least, is the suit to be brought on behalf of Ex-Queen Lilioukalani asking for a couple of million dollars from the United States government because of the part taken in procuring her deposition by its representatives.

The estimates of appropriations for the next fiscal year have been completed and the President can occupy any of his spare time in beginning the preparation of his annual message to congress, which must be got ready within the coming six weeks. So that it is easy to appreciate how, on his return, the President will find awaiting attention enough work to put his recuperated powers into active play.

Bicycle Quadruplet Goes in 1:41 3-5.

BUFFALO, N. Y., Oct. 24.—John S. Johnson broke two tires yesterday trying to break the mile straight away record. He will try again to-day. The pace was made by a quadruplet consisting of Murphy, L. Callahan, Saunders and A. D. Kennedy. The quadruplet went ahead and made a mile in 1:41 3-5, which is three fifths of a second out of the way of the tandem record for a straight away mile made by Ralph and Schofield on an English track.

New York Democrats Confer.

NEW YORK, Oct. 24.—Yesterday was a day of conferences among the democratic leaders with a view to straightening out the tangles resulting from the nomination of factional democratic congressional candidates in this city and Brooklyn. Terms of compromise, it is announced, are practically decided upon by which the tangle will be straightened out, and the democrats united on single congressional candidates.

Bought by the Western Union.

BALTIMORE, Md., Oct. 24.—A deed conveying to the Western Union Telegraph company all the lines and property of the American Rapid Telegraph company was filed yesterday in the record office of the Superior court of this city. The consideration is $550,000 in the capital stock of the Western Union.

NEW YORK, Oct. 24.—The articles of agreement to govern the coming heavyweight championship battle between James J. Corbett and Robert Fitzsimmons have been signed by both men, and the president of the Florida Athletic club, under whose auspices the contest will take place, will affix his signature to them this week. The contest is now considered a certainty.

TO HAVE A NEW TRIAL.

Koetting Rearrested as Soon as the Decision Is Known.

MADISON, Wis., Oct. 24.—The Supreme court yesterday granted the appeal of John B. Koetting, ex-cashier of the South Side Savings bank, Milwaukee, for a new trial. The decision says the lower court erred in refusing the request of the defendant's counsel to direct a verdict of not guilty on the ground that there was no evidence whatever of the specific offense contained in the information. District Attorney Hammel almost at once filed a new complaint against John B. Koetting and had the sheriff bring him into court again. The new complaint charges Mr. Koetting with having, July 21, 1893, taken a deposit from H. Kooper of $48 and from L. Nachtsheim of $156. This is believed to cover the ground and avoid the previous technicality. The case will be tried Nov. 1, The arrest of Koetting will be followed by the arrest and arraignment of the officers of the Plankinton bank, President Frederick T. Day, Vice-President William Plankinton, and Directors Judge J. G. Jenkins, Eugene S. Elliott, and Francis W. Noyes. All of these officers and directors will be rearrested within forty-eight hours as a result of the decision handed down by the Supreme court at Madison yesterday morning.

TO FORM ONE ORDER.

Switchmen Meet at Kansas City to Organize a Union.

KANSAS CITY, Mo., Oct. 24.—Switchmen representing almost every large city in the United States are holding a meeting here. The purpose of the meeting is to form a national organization. It is likely the constitution and ritual of the old Switchmen's Mutual Aid association will, with a few changes, be adopted. Among the names proposed for the new organization are "The Switchmen's Union of North America," "The Brotherhood of Railway Switchmen" and "The Switchmen's Benevolent association." Many of the members favor the first named, and it will probably be adopted. The election of permanent officers will be the last business to be transacted. All the delegates agree that a national association must be formed and intend to complete such an organization before they leave Kansas City. Many are disposed to do away with the insurance feature, which, while it has its benefits, has been found very often to be a source of trouble to the organizations composed of railroad men.

FIXING LABOR REPORT.

Commissioner to Submit It to Cleveland for Approval.

WASHINGTON, Oct. 24.—The national strike commission appointed by the President to investigate the great strike at Chicago reconvened yesterday in the office of Commissioner Wright. It is said that the important rulings recently made by Justice Harlan of the United States Supreme court in the Jenkins injunction case are in line with the conclusions drawn from the Chicago outbreak, as to the rights and limitations of strikers. The report will be submitted to President Cleveland soon after he returns and it will remain for him to determine as to its policy.

Strikers Gain in Numbers.

FALL RIVER, Mass., Oct. 24.—The striking weavers are still gaining in numbers. The mills have lost 1,200 looms since Monday, making a total of 4,700 since Saturday. At a meeting of the strikers it was voted to request a conference with the manufacturers, when it is probable that they will ask that the same concessions be granted the weavers as were granted the spinners. It is stated the manufacturers will make no concessions.

Mayor of a Kansas Town Killed.

WICHITA, Kan., Oct. 24.—John F. Marsh, mayor of Kinsley, Kan., and a prominent man in state politics, was shot by two horsemen Monday night and received wounds from which he died yesterday afternoon. The greatest excitement prevails and if the posse now in pursuit captures the murderers the latter will never live to be tried by the law. The state, county and the murdered man's family have offered rewards aggregating $1,200.

Chicago's Second Registration Light.

CHICAGO, Oct. 24.—There was a falling off of 10,000 in yesterday's registration as compared with the second day's registration of 1892, yet the decrease is apparently not sufficient to prevent an increase in the total registration over two years ago, not calculating the women, of 7 or 8 per cent. The number of women who registered yesterday is 3,000 greater than the number who registered last week.

Train Robber Fully Identified.

CINCINNATI, Ohio, Oct. 24.—Depot Watchman Wright has positively identified C. A. Morganfield as the man whom he saw with Searcey in Cumberland, Md. The sheriff of Stafford county, Va., will arrive here today. Morganfield's broken leg will compel the authorities to carry him to Virginia on a stretcher. The prisoner is very unwilling to go.

To Establish a Central Union.

INDIANAPOLIS, Ind., Oct. 24.—At the session of delegates representing the iron and brassworkers of the United States it was proposed to establish, wherever possible, in all large cities, a central union, of which the various iron trades unions will be members. No political action is to be taken, although the majority of ironworkers indorse reform movements—that is, the populists.

RAID ON TWO TOWNS BY THE COOK GANG

OUTLAWS STILL AT WORK OUT WEST.

Carnival of Crime Continues in the Indian Territory—Postoffice Robbed and Merchants Compelled to Hand Over Their Valuables—Soldiers Are Asked For.

LITTLE ROCK, Ark., Oct. 24.—Monday night's program in the great carnival of crime which is now holding the boards in the Indian territory consisted of the wholesale robbery of several small towns in genuine desperado style by Bill Cook, supported by a strong and desperate company of eight or ten followers. Four men rode in to the town of Watova early in the evening, making their approach known by a promiscuous discharge of firearms. The bandits terrorized the inhabitants, who sought safety in their homes behind barricaded doors. The outlaws visited every store in the village and ran the merchants away with Winchesters and revolvers. They took from the stores all the money they could find and everything else they wanted. The Watova postoffice was robbed of about $60 in cash and $55 in stamps.

From Watova the gang rode on to Tala, ten miles away, where they repeated their depredations. They rode into town and proceeded at once to rob stores right and left. Every store in the place was visited and the proprietors compelled at the point of revolvers and Winchesters to turn over their cash.

The postoffice was also robbed of stamps and a small amount of money. The bandits entered the town boldly and made no effort to conceal their identity; none were masked. From reports of their description they were undoubtedly the same gang that held up the Missouri Pacific train at Coreta Siding Saturday night.

It is believed it was the bandits' intention to rob the Missouri Pacific passenger train No. 231 at Tala. While they were holding up the postoffice the train pulled into the station. The trainmen were notified of the presence of the gang and the train was started at once. Tala is near Claymore and forty miles west of Coreta. The bandits did not tarry long after the train pulled out. They galloped out of town, discharging their Winchesters.

SOLDIERS NEEDED.

Request for Troops to Suppress Bandits Sent to the War Department.

WASHINGTON, Oct. 24.—Secretary Hoke Smith has requested the secretary of war to send troops to the Indian territory to suppress the lawless bands which have been operating there and in the adjacent country. The secretary suggests that a troop of cavalry be sent into the Indian territory to assist Agent Wisdom in preserving the peace. It is expected that the troops would then be used to hunt down and drive out the marauders who are harassing the people.

Agent Wisdom wired the Indian office asking authority to incur the necessary traveling expenses of the Indian police in assisting United States marshals who were hunting down the thieves and making arrests. Such authority was granted. Army officers feel the express companies have gone as far as they should in the direction of guarding the property confided to them.

Drove Marshals Out of Town.

PUEBLO, Colo., Oct. 24.—Twenty-three American Railway Union men, all from Trinidad, were put on trial here yesterday before Judge Hallett in the Federal Court. The charge is resisting United States marshals and interfering with the administration of justice July 1 last. Sixty deputy United States marshals were disarmed by the strikers at Trinidad and then driven out of town and otherwise roughly handled. All pleaded not guilty and are being tried together.

WABASH, Ind., Oct. 24.—Wabash was visited at midnight last night by the worst fire in its history. The extensive shops and roundhouses of the Michigan division of the "Big Four" were almost wiped out. Shortly before 12 o'clock a slight explosion of natural gas in the machine shop set the interior of the structure, 50x400, in two stories, ablaze and the roundhouse on the east and the car repair shops on the south were a few minutes later a sheet of flame.

There were twelve engines in the shops and east and west roundhouses, all but four of which were saved. Two coaches and two cabooses in the car shop were consumed, and half a dozen freight cars also burned. Over one hundred men will be thrown out of employment and half of these lost their tools. It is impossible to get an accurate estimation of the loss, but it will be at least $100,000, with insurance about one half, placed, it is said, in Cincinnati.

Fighting Fire in Copley Swamp.

AKRON, Ohio, Oct. 24.—The condition of the fires in Copley swamp has improved. The wind prevents the fire from spreading with rapidity, and the fighters of the flames feel much encouraged. A "dead line" has been dug fifteen feet wide and five feet deep, and it is hoped to stop the progress of the flames here. A herd of thirteen fine Jersey cattle belonging to John W. Frank were caught in a circle of fire yesterday and suffocated to death. The smoke darkens the city by day and is suffocating at night.

After supper he spoke from the balcony of the hotel to a large crowd that literally packed the street. Gov. Major for alleged violation of authority in connection with the system of bookkeeping put into the municipal departments some time ago by the Safeguard Accountant company, of Chicago. The alleged violation of authority consists in the action of the mayor in appointing to the office of city accountant James W. Caldwell, Perry Crippen and W. O. Curtiss, successively, all of whom are alleged to have been incompetent, and in the approval by the mayor of a claim of $3,177 of the Safeguard company, which claim the council rejected as "boldly illegal and extortionate."

The mayor is charged with further dereliction of duty in failing to have presented monthly statements from the several city departments, as provided by law. Many members of the council consider the affair as the first step toward impeaching the mayor.

DEFICIT OF $10,000 REPORTED BY CARD

INVESTIGATION OF CITY ACCOUNTS FINISHED.

Crowd Fills the Council Chamber and Listens to the Reading—Treasurer Murphy Charged With $9,098.94 and Officer Hogan With $1,026 31—Bondsmen Will Investigate.

Expert Card's fifty eight page report was laid before the council last night. It took Clerk Bates an hour to read it. These shortages were announced:

EX-TREASURER MURPHY.	
First term, 1886-7	$ 695 16
Second term, 1888-9	1,310 00
Third term, 1890-1	1,428 41
Fourth term, 1892-3	5,664 47
	9,098 04
JOHN W. HOGAN.	
As city marshal, for fees	$ 1,014 31
As patrolman, for fees	12 00
	$ 1,026 31
T. L. ACHESON.	
Jail fees	$ 39 00
Marshal's fees	44 18
	83 18
JOHN KRUSE.	
Jail fees	$ 24 00
Total shortage	$10,231 5

The expert declared that the system of book keeping followed has been no system at all. Mr. Murphy, according to the detailed report kept no regular report of the cash received or cash paid out. compiling his ledger from his monthly report. Mr. Card said the books showed that taxes had been collected and receipts given twice for the same tax, also that excess tax had been collected, and that property had been sold as delinquent when the tax had been paid and receipt given. The only large item he found covered the sum of $4,500, a portion of the license money paid in during the last term.

The report read did not cover the whole details of the expert's examination, he stating that he had made a ledger account, in which he had entered every item in its order, noted with reference showing where it cou'd be found.

Crowd Heard the Report Read.

There was a large crowd of people present but the room was as still as an empty meeting house during the reading of the report. After the report had been read Alderman Child moved that the report be received and placed on file, which was adopted, thus making the document public property.

Alderman Child stated that Mr. Murphy's bondsmen desired to make an examination of the expert's report, together with the treasurer's books, and also that they desired Mr. Card to be with them for a few days to assist in a re-examination. This idea was embodied in a motion by Alderman Rich and adopted by the council.

"Why were not the bondsmen given an opportunity to examine the report before it was made public?" asked Alderman McLean.

"The finance committee were under the instructions of the council," said Alderman Child. "The bondsmen at first requested an opportunity to make an examination, but later withdrew it."

As an offset to the sum charged against him by Expert Card Patrolman Hogan presented a bill against the city, being items paid out by him between April 1, 1882, and January 1, 1891, amounting to $693,80, and for boarding and shoeing a horse used by him for the benefit of the city, amounting to $441.50 or a total of $1,135.30, The bill was referred to the finance committee.

Assessed Twice on One Sum.

A communication from Mrs. E. E. Calf stated that in May last she had $800 in money which was assessed. A little later she bought a house with this money and was compelled to pay taxes on this too. She asked the council for a rebate. Her request was referred to the finance committee. A communication from W. H. and E. D. Tallman in relation to the special tax against their property on South River street, was referred to the judiciary committee.

The bond of Ryan & Brown, contractors for paving East Milwaukee street, was approved. A petition of Fifth avenue property owners asking for the grading of that street was referred to the highway committee. The petition of Yuba street property owners asking for an established grade, was approved and the city engineer was directed to make and file a profile of the same. Ryan & Brown were given until November 15 to complete the improvement of East Milwaukee street.

The report of W. W. Wills as superintendent of the West Milwaukee street pavement contract, that it was entirely satisfactory and complete, was accepted. Orders were authorized in favor of Merchants & Mechanics bank as assignes of J. Martin & Co., for the payment of balances on South River and Main street paving contracts.

C. D. Stevens was given permission to erect a gas lamp at his own expense at the corner of Main and East Milwaukee streets. An electric light at the corner of North Main street and Mineral Point avenue was ordered. Alderman Winslow introduced an order for an electric light to be located in Riverview park, and for another to be located on Milwaukee avenue. which was referred to the gas committee.

The mayor was authorized to borrow $2,500 for the general fund. Orders were adopted as follows: By Alderman Heddles—For the repair of Highland and Oak Hill avenues; and a portion of Washington street. By Alderman Winslow to cover the display fountains after November 1.

CADWALLADER'S SISTER WEDS.

Quaker Form Observed—Ex-Banker is One of the Witnesses.

Bert Van Syckle and Miss Margaret Cadwallader, both of whom claim Janesville as their home, were married in Madison Monday night. The young people are Quakers and followed the good old Pennsylvania style. The ceremony, which was to have taken place at 3 o'clock in the afternoon, was postponed until evening, because Mrs. Cadwallader, sister-in-law of the bride, wished her husband to be present. A. A. Cadwallader, the ex-bank official, has been confined in the Dane county jail for a year and a half on a charge of embezzlement at Superior, his wife living in Madison to be near him. Jailor Meehan granted an hour's release to the prisoner, who sat during the service with his pretty children, one on each knee. The ceremony consisted of the reading of a declaration signed by both bride and bridegroom, that they would be faithful and loving to each other while life lasted and the document was then signed by Mayor Corscot and City Clerk Norsman, who were the only ones there outside of the immediate family, as witnesses. The couple returned to Janesville today.

DON'T THINK MUCH OF JANESVILLE

Football Players in Rockford Are Full of High Ideas.

After running eleven players and the umpire against a Janesville team, Rockford has the gall to brag of its victory. The Register-Gazette says:

"The Janesville high school boys will soon be used to be worsted at athletics by the Rockford students. Twice last summer the Bower City boys were humbled at base ball by Rockford, and now at the beginning of the foot ball season, they are again crushed to earth by an overwhelming score. The game was played at West End park Saturday afternoon and witnessed by a fair sized audience. Janesville was strengthened by three players from Beloit college, but at every point of play they were inferior to Rockford. The local boys played an aggressive game and had their opponents terrorized in the first half. In the last half the visitors braced up somewhat and the game was more interesting. The Janesville boys were entertained at the homes of the Rockford boys. The team comprised Bostwick, Deane, Merritt, Echlin, McNamara, Scott, Goodwin, Jeffris, Blakley, Sutherland and Welsh."

H. S. GILKEY NAILS LIES ABOUT UPHAM

THE JANESVILLE LUMBERMAN TELLS OF HIS EXPERIENCE.

He Did Business With the Marshfield Man for Years and Therefore Knows Coupons Take the Place of Pass Books—Not Forced on the Employes.

"It is all rot to charge that W. H. Upham compels his workmen to accept coupon books instead of cash in payment for their labor" said Herbert S. Gilkey of the lumber firm of Pendleton & Gilkey. "There is a law that sees to that."

Mr. Gilkey's statements carry weight. He has done business with W. H. Upham and the Upham company for several years and their business transactions have been such that a personal acquaintance has grown up. Mr. Gilkey speaks from experience and in conversation with a Gazette reporter he said:

"There is no lumber firm in Wisconsin that treats its men any better than W. H. Upham and many of them do not use their employes nearly as well. Why, when there were strikes all through northern Wisconsin, Upham's men did not quit.

Strikes All About Him.

"We had a strike in our Oconto yard, which by the way was the only strike we ever had; but Upham's men did not quit. There were strikes all about him but the wheels in his mill did not cease to buzz and they were operated by the same men that had operated them before. No one in Marshfield has done as much for the town. When he went there the town didn't amount to much and if he left there would be little remaining.

"He owns and operates a fine mill and owns the biggest and best store in Marshfield and keeps by far the best assortment of goods in the city. If he didn't sell them as cheap as anyone else he couldn't do business, for his trade is by no means confined to his employes. I know these things. For three years we did business with him while I was connected with the Madison Lumber company, before I was in this firm and we have done business with him since.

Coupons Instead of Pass Books.

"His coupon books simply take the place of the pass books that many merchants use. Instead of having the items entered in the pass book, the holder has the coupon torn out or punched. With pass books, the books are frequently forgotten and often at the end of the month the merchant's books and the pass book do not balance. Then there is a row, but with the coupon book this is done away with. They are a convenience and an immense saving in work and trouble to both parties and are a strictly legitimate business idea. As for the men being compelled to take them in payment for their work and then hawk them about to get money it is all nonsense. The law makes an employer pay his men and W. H. Upham or anyone else cannot escape paying them their money. Their lien for wages cannot be gotten around except with cash. It is folly for democratic papers to cry this kind of stuff; every man who knows W. H. Upham knows it is false; and every working man in Northern Wisconsin knows it too.

Emphasizes His Statement.

"I want to repeat what I said before: No firm treats its men better than the Upham does and many do not treat them as well. He does a great deal for his men and a great deal for Marshfield."

Mr. Gilkey speaks in the highest terms of W. H. Upham and his speech is born of his own knowledge and personal experience. He first took up the subject when he heard a party of men, among whom were some who were condemning Major Upham, and they got arguments from him that showed them new light. His statement is made in defence of a man and a friend who is assaulted and slandered by people who know him not and whose knowledge of his business methods is restricted to what they have read in democratic papers led by the most cowardly, deceitful and lying sheet in Wisconsin, The Milwaukee Journal.

Reaches All Because It Is Free.

Do you want to be strong and healthy? Well, here is the best opportunity you ever had. A system of free letter correspondence has been established by Dr. Greene of 35 West 14th Street, New York City, the most successful specialist in curing nervous and chronic diseases. You don't need to leave your homes to make a long journey or pay any doctor's fee, and both of these considerations have prevented thousands from getting well. But just write him a letter stating how you feel, and he will answer it, giving a complete description of your case and telling you just what to do to get well.

He gives most careful attention to every letter, and with his vast experience makes you see at a glance exactly what ails you. And for all this he makes no charge. He makes a specialty of treating patients through letter correspondence, and is making wonderful cures. He is the discoverer of that world-renowned medicine, Dr. Greene's Nervura blood and nerve remedy, which is curing more people than any other medicine ever made. The most sensible thing you can do is to write him at once and there is not much doubt that it will result in your being cured. Remember it costs nothing to find out all about your case.

The Indifferent Man.

The indifferent man is a "goner." The man that don't care how the world wags isn't of much account. The man who falls into the first store on the street and does just what he is told to do without looking around will always wear old clothes and live in a rented house. We want you to look around and save money in buying your fall wear and we are willing to part with a part of our profit in helping you out.

SOCIAL AMENITIES.

The Widower Has the Conceit Taken Out of Him.

The physician in one of the interior small towns is a great tease, and the general storekeeper is a widower with an idea that he is irresistible among the ladies. The doctor drives an aged mule called Jane to his gig, says the Detroit Free Press, and the widower more than once, when he has met with the doctor with a lady in his gig, has guyed him for not driving a better animal. The other day the doctor appeared in the store.

"There's a friend of mine out here wants a bale of hay," he called to the proprietor, who was at the far end.

"What's his name?" inquired the widower.

"It isn't a his, it's a her," corrected the doctor.

"Oh, ah, a lady?" smiled the widower, take me out and introduce me?"

"Certainly," responded the doctor.

"Wait till I slick up a bit," and the widower washed his face and hands, combed his hair, put on a collar and coat, gave himself a brushing and started out with the doctor.

"How old is she?" he asked as they reached the door.

"About 18 or 19, I should say.

"Married?"

"Oh no." and as the doctor stepped outside the storekeeper stepped behind the counter and slipped a peppermint drop into his mouth. He thought the lady was in the gig standing at the rack, and just as he reached it he straightened his necktie again and cleared his voice and the doctor stopped.

"Jane," he said blandly, "let me present Mr. Blank, the gentleman from whom you will get the bale of hay," and Jane stuck out her nose to the widower in such a pleasant, friendly manner that he was utterly overcome, and with a snort he turned and fled back into the store.

SQUARING THE CIRCLE.

This Mathematical Problem Was Attempted Four Thousand Years Ago.

The oldest mathematical book in the world, which dates some 4,000 years back and was written in Egypt, contains a rule for squaring the circle, says the Engineers' Gazette. The rule given is to shorten the diameter by a ninth, and on the line so obtained to construct a square; and this, though far from being exact, is near enough for most practical purposes. Since then the amateur squarer of the circle has been a thorn in the side of the professional mathematician. Learned societies at last, in pure self-defense, made a rule that all resolutions of the problem sent to them should without examination be consigned to the flames. In the last century a Frenchman named Mathulus was so sure he had succeeded in squaring the circle that he offered a reward of $1,000 to anyone who proved his solution erroneous. It was shown to be erroneous if not to his own satisfaction, at least to that of the courts, and he had to pay the money. Mathematicians have long been convinced that the solution was impossible, but it is only a few years since they were able to demonstrate this. A German professor named Landmann published in 1882 a demonstration, which was accepted by the scientific world as satisfactory; so that would-be squarers of the circle may now rest from their labors, seeing that it has been mathematically proved that the thing cannot be done.

Buffalo in Canada.

A report comes from Winnipeg, Canada, that there are great numbers of buffalo still alive in the northwestern part of that country. They are wood buffalo, but it is said they are to all appearances the same as the animals which at one time were so numerous on our western plains. It is said that more than 200 of them were killed by the Indians in the Slave lake district this season. They are slaughtered for their hides. The question, where did these wood buffalo so suddenly come from? now naturally suggests itself. The Indians and traders have long ago given up hope of ever seeing any again. Last winter the weather in this section was unusually severe and thus the animals were driven south in search of food and wandered in the track of Indians.

The design of the American flag was probably borrowed from the family arms of General Washington, which consisted of three stars in the upper portion and three bars across the escutcheon.

ONE KIND OF RAW MATERIAL.

If there is any reason why the democratic party should be continued in power it is not apparent on the surface. If there is any reason why it should not be defeated and routed from one end of the conntry to the other, the reason is very obscure. A party of lofty pretense it has disappointed and disgusted many of its most ardent supporters. It is wrong in principle, wrong in policy and thoroughly incompetent to administer the affairs of government.

The leaders of the democratic party are in sympathy with foreign countries to such an extent that they are willing to discriminate against their own country. They believe in free trade and from the chief executive to the cross roads politician, the changes are rung on free "raw material;" yet the democrat remains to be discovered who can define the unknown and undiscernible phantom, "raw material."

The rawest material that can be found today consists of the dupes of the democratic party who have waited in idleness for a democratic congress to pass a bill in the interests of England and the old world. Labor on this kind of raw material, adds nothing to its value, but bitter experience may teach a useful lesson.

Thomas Luchsinger of Monroe, was in town today. He holds the office of dairy and food commissioner, this being the same place that the Milwaukee Journal dubbed "the fairy and dude commissionership," before a democrat got it. As will be remembered, the abolition of the office was one of the first things to be done if the democratic party got into power.

Rock county farmers who see wool going down, Canada hay ruling the northern and eastern market, leaf tobacco selling at ruinous prices and Russian barley landed by the shipload in Milwaukee begin to appreciate their share of "free trade and reform."

Thirty-three years ago the republicans of Rock county were giving themselves their sons and their property in defence of their political principles. Today Candidate Hogan asks them to sell out for four cents!—Beloit Free Press.

Too many Janesville men know the details of Major Upham's liberality and fairness. Those Milwaukee Journal stories are nothing but boomerangs when used here.

Hon. Fenner Kimball, who will represent Rock county in the legislature this winter, has earned public confidence by his spotless record at Madison, in the county board and in private life.

Isn't this a little late for Candidate Hogan to file bills for shoeing done in 1892?

RAYNOR WAS A BOY IN HIS OLD AGE

Rock County Pioneer Remembered Very Kindly By South Dakota Friends.

Daniel O. Raynor, the Rock County pioneer who died in Sioux Falls October 13 is spoken of highly by Dakota papers. The Sioux Falls Press says:

"Mr. Raynor was born in Hartford, Conn., May 26, 1806, and had reached his eighty-ninth year. He was the son of Rev. Menzies Raynor, who was the first rector of Christ church at Hartford, and a nephew of Peter Cooper, the great philanthropist. In 1834 he removed to St. Louis, where he was married. He then removed to Sbopiere, Wisconsin territory, and later took up his residence in Janesville, where he lived until 1873, when he went to Hastings, Minn.

"During all his life, 'Uncle Dan,' as he was familiarly called by all his legion of friends, young and old, was rugged and active, but on the 15th of last February he suffered a paralytic stroke, which has ever since confined him to his bed, and which also affected his mind. During all these months he has been a very great care, but no invalid ever had more constant and tender attention than did 'Uncle Dan' at the hands of both Mr. and Mrs. Vincent. He rebelled at the idea that he should not be able to be up and around as formerly, and it required great knack to make him even occasionally submissive. Much of the time he was in pain, and there is a kind of sad gratification in the fact that death has finally released him from his helplessness.

"'Uncle Dan' was a striking character in this community. When considerably past his four-score years he still indulged in trap shooting and field hunting, and no boy was ever prouder of his skill and prowess as a Nimrod. He delighted in associating with young fellows, and among all classes his hearty and genial ways made him a great favorite. He lived a life full of pleasant thoughts and pleasant actions, and there are very many who have missed the delightful old gentleman from among them as he has lain upon his bed unable to join their sports and pastimes."

FIRST MASQUERADE A SUCCESS.

Grocery Clerks Had a Crowd of Three Hundred People in the Armory.

Once a year Janesville grocery clerks give a masquerade, and, oh, what a time they do have. Last night was their appointed season and the armory was a whirl of red, white yellow and black dominoes, grotesque masks, short skirts, baggy trousers and striped cutaways. The crowd was large, fully three hundred being in attendance. Between seventy-five and one hundred were masked. It was eleven o'clock when the maskers joined in the grand march, and after going through a long march they were given a chance to reveal their identity. There were surprises galore, as will be admitted by some of the boys who became enamored of a winsome little skirt dancer and found after spending a good dead of money on her that "she" was really Georgie Dower, the youthful pianist.

HOPE FOR THE HAIRLESS.

Professor Birkholz, of Chicago, Gives Hope to Those Afflicted with Baldness--A "No Cure, No Pay" Treatment.

Professor G. Birkholz, of Chicago, the eminent German specialist, who for years has devoted his time and talent to the study of the hair follicles, and who has evolved the most successful treatment for baldness the world has ever known.

He will carefully examine each case and candidly inform the inquirer whether his baldness can be cured and the hair be restored. These examinations are made without charge.

In all cases where there are any hair follicles remaining undestroyed by age or disease the professor will undertake a cure, and if he does not effect a restoration of the hair he will ask no pay.

The remedy is an imported one, and the treatment given by the professor is his own, and cures where all others fail. If your case has been pronounced incurable do not take it as a final answer until you have seen Professor Birkholz and received his opinion.

Many persons have small bald spots through the hair. These increase in area and in time produce baldness. In such cases the hair follicles need nourishment. Prompt treatment will bring them into activity and restore the hair.

The success that has attended Professor Birkholz everywhere enables him to give a positive opinion in each case presented to him. Those who are bald or are threatened with baldness should not delay treatment, but call upon the professor at once. 1011 Masonic Temple Chicago.

☞Hand this notice to any first-class druggist and he will get the remedy for you at once, if he has not got it in stock.

TWENTY YEARS

OF ONE WOMAN'S LIFE

Spent With and For the Benefit of the Women of the World.

[SPECIAL TO OUR LADY READERS]

One woman's work has told for good in thousands of homes throughout the world.

What a record of helpfulness!

What happiness and comfort that work has brought to thousands of despairing women; what pains banished and how smooth the way was made for weary sufferers, no pen or tongue can ever tell.

Lydia E. Pinkham gave the best of her life to the women of the world, that through her the suffering of her sex might be relieved.

Her Vegetable Compound saves women from all diseases of the womb and kidneys. It has stood for twenty years against all cavil, and won the first place in the hearts of women.

Look at the picture of this New York woman, once confined to her bed by chronic female weakness, now able to follow her husband in the Adirondacks on long gunning tramps. Lydia E. Pinkham's Vegetable Compound made this change in her life.

Just hear this one talk. It does one's heart good.

"Female sufferers, hear me!

"I was discouraged, broken-hearted. I was so ill with female trouble I could not walk or stand, and had to be assisted to my feet when arising from a chair. My head whirled, and my back ached; but worst of all was that awful crowding-down feeling in my abdomen.

"A friend of mine told me of *Lydia E. Pinkham's* Vegetable Compound; her faith won mine, and now I am well. Oh! how can I return thanks to Mrs. Pinkham?

"Every woman troubled with uterus or womb troubles can be cured by Lydia E. Pinkham's Vegetable Compound, for it cured me, and will them." — Mrs. KERHAUGH, Juniata St., Nicetown, Pa. Every druggist has it.

Like "Sweet Bells Jangled Out of Tune,"

Weak nerves respond harshly and inharmoniously to slight shocks, which would produce no effect upon strong ones. The shrill outcry of a child, the slamming of a door, the rattling of a vehicle over uneven pavement and other thrilling disturbances effect weak nerves—sensitive nerves, sorely. Nervousness is largely attributable to dyspepsia and non-assimilation of the food, a very usual concomitant of sleeplessness. Digestion and assimilation renewed by Hostetter's Stomach soon beget nerve quietude and sound repose. The great alterative causes the liver and bowels to unite in co-operative harmony with the stomach, whereby the general tone of the system is raised to the true standard of health. In malarial complaints, rheumatism and kidney trouble, the Bitters produce excellent results.

LOCAL SOJER BOYS FIGURE IN HISTORY

SKETCH OF THE JANESVILLE LIGHT INFANTRY.

Cleverly Written Story Prepared For "The History of the National Guard of Wisconsin" Tells Some Interesting Facts In Regard to the Bower City Militia Company.

Janesville militia has figured in the making of history more than once. It now gets honorable place in the summary to be published by the state—"The History of the Wisconsin National Guard." The writer says:

The Chicago fire in 1871, the Pittsburg riots in 1876 and other concurring events which caused our government to use its troops for the suppression of disorder was the direct cause of the formation of the Wisconsin National Guard, and in 1878 the prevailing spirit reached Janesville. The Janesville Guards were organized August 5, and the local paper of that day said of the membership of the company: "The men are nearly all young and a glance down the line will show they are of the best in the city, and as such will be an honor to the city, and also to the state." and this prophecy turned out to be true.

The officers first elected were T. T. Croft, captain; H. A. Smith, first lieutenant; M. A. Newman, second lieutenant; J. W. Bates, judge advocate; J. W. St. John, surgeon; T. W. MacLean, chaplain. The company soon established such a record and reputation that they were known, not only throughout the state but throughout the whole country. In these contest, July 4, 1879 with the Oshkosh Guards they won first prize and in the contest at Freeport, Ill., the same summer, they divided equal honors with the Aurora Guards and the Rockford Rifles. In 1880 in the great state contest, open to all troops of the state, they carried off first prize, a purse of $500. First prize was also won at Woodstock, Ill., in a contest open to companies of the northwest; again at the contest held before the reunion of the G. A. R., they were successful in winning honors when they brought home the diamond medal. In 1880 they made a tour through the south on invitation of the militia of Atlanta and Macon Georgia. In 1881 they took part in the suppression of the EauClaire riots. In the following year they also took part in the state encampment as well as visiting the state encambment of Illinois and Iowa as guests of those states. They attended the reception of General Grant on his return from his trip around the world and there escorted and acted as guard of honor to the ex-president. In 1886 the riots in Milwaukee called them into duty and again they proved that they could be depended upon when necessity demanded work. Another visit throughout the south. this time to Macon and New Orleans, gave the company evidence that their reputation was not confined to their own state. About the time of the organization of the Guards, a second company was formed and known as The Bower City Rifles. This company also were honored by trips abroad and honors showered upon them, they winning many prizes in contests. It had happened in many contests that the two Janesville companies have brought home first and second prize. It was decided by the state authorities that there should be but one company in Janesville and the Guards and the Rifles were consolidated into one company and are now known as Co. A. The record of the new company is well maintained at present. For the honors conferred upon them in the past, for the high position they attained, for their success in all contest, for their record so grandly established, credit should be given to their several captains: T. T. Croft, H. A. Smith, (now living at Cleveland, Ohio,) M. A. Newman, Chicago, J. B. Doe, now assistant secretary of war, Fred H. Koeblin and C. F. Glass. Its present officers are: Captain C. F. Glass; First Lieutenant, Leo Rooney; Second Lieutenant, Charles Hansen.

This is the last town of his trip and he will dispose of any garment in his line for about half its real value. We will also offer on these two days 650 cloaks, divided into three lots, at figures that are only prices in name. Lot one, 150 cloaks worth $7 to $10 each for 39 cents apiece. Lot two, 200 cloaks worth from $12.50 to $15 for $2.90 each. Lot three, 300 cloaks worth from $15 to $25 for $4.85 each. Be not deceived in thinking lightly of these offers, we mean business and are determined to dispose of these garments. You will find them exactly as advertised when you come. Please don't forget the date. T. P. BURNS, Janesville, Wis.

Don't Think So Much.

You study over the buggy question too much. You ask everyone's opinion. They each recommend the buggy they have. You talk with dealers and "look around." You finally get to thinking so much about the price that you forget the value altogether. Don't do it. Buy from the Janesville Carriage Works. You will get all you pay for and you can depend on what we tell you.

WANT TWO STREETS FIXED UP.

Fifth Avenue and Yuba Street People Want Improvements.

Fifth avenue people want that street re-graded from Prospect avenue north to St. Mary's avenue, and the matter is now in the hands of the highway and street committee, with a probabillty that it will be favorably considered.

Yuba street property owners want to build sidewalks and the street, while it has been worked by lot owners, has no established grade. The residents now want the present grade made official so that they can build their side walks. Such a petition is now in the hands of the highway and street committee.

SLOPE AT THE MOUTH OF A SEWER

Paving on Milwaukee Street Checked By a Change In the Grade.

The work of laying blocks on East Milwaukee street was not commenced this morning as anticipated. After the road-bed had been prepared ready for the blocks it was discovered that Engineer Bleedorn had left too sharp a depression at the mouth of the sewer at the Myers House corner, and after consultation it was decided to make a change by raising the grade, avoiding as much of the slope as possible. At best it will make an unsightly hole at a popular corner and one which may cause many accidents.

HURRYING THE STREET-CAR WORK

Superintendent Proudfoot Races With Pavers—New Car is Ready.

Superintendent Proudfoot is hurrying the work of lowering the street railway track on East Milwaukee street, to get out of the way of the pavers. He is shortening the Milwaukee street switch by ninety feet, so that the west end will be some distance from Bluff street. The new Forest Park car is ready to be put in service as soon as the track is replaced. This car, while it is small, will be the handsomest on the line.

MYHRS HAD A WOODEN WEDDING

Friends of a Second Ward Couple Made the Evening a Lively One.

Five years of happiness have passed over the heads of Mr. and Mrs. Fred J. Myhr since they were joined in wedlock. They wouldn't have realized it themselves, probably—it has all been like one brief honeymoon—but thirty or forty friends gathered at their home last night and marked the flight of time in lively fashion. The fact that it was a wooden wedding celebration was emphasized by some appropriate presents, while the supper served would make even a wooden man wish to be alive.

DR. NORMINGTON "NOT GUILTY."

Her trial was set for November 7, at 10 o'clock a. m. Herman Kath, the saloon keeper, is the complaining witness and the arrest grew out of the shooting of Mr. Kath's dog by the defendant on Monday evening. The penalty is a fine of not more than fifty dollars nor less than one dollar.

SALOON MEN'S SUIT HAS BEEN BEGUN

PETITION FILED IN THE CIRCUIT COURT TODAY.

Alleges Among Other Things that the Notice of Election Was Illegally Published; That Ballots Were Illegal and Illegally Handled and Asks the Election be Annulled.

Saloon kespers filed their protest against the special license election, with Clerk E. D. McGowan today. James Ennis is the dealer in whose name the suit is begun. The petition sets forth:

That the publication of the election notice was defective in that it was published in but two of the daily papers, while the law requires it to be published in all the papers.

That the ballots furnished by the city clerk were illegal in form because they did not comply with the requirements of the general election laws in that each voter was given three ballots instead of one as is required by law, and that the voter compelled to select one of the three and return the other two thereby making it impossible to vote secretly.

That the city clerk failed to cause to be printed or furnished any unofficial or sample ballots. That the election was not held in accordance with the provisions of law respecting general elections, and that it was not held under any restriction or ordinance of the common council.

The petition then goes on to state in detail other irregularities as to the manner of conducting the election, and the canvass of the returns by the common council, and claiming that the council's action in declaring the license for next year to be $500, was illegal and void on account of the numerous irregularities.

The petition claims that he was damaged by having the sale of his saloon business broken off solely on account of the action of the holding of the illegal election, and the action of the council declaring the result. The petition asks that the election be declared undue, illegal and void. J. L. Mahoney and E. M. Hyzer appear as attorneys.

HUMOROUS HITS.

Agricultural Intelligence.

A New York gentleman accompanied by his little son took a stroll into the fields that were white unto the harvest. They met a sturdy farmer, whereupon the gentleman remarked:

"That's a fine field of oats you have there."

"Don't you know the difference between oats and wheat?" asked the sturdy farmer, contemptuously.

"No, I don't."

"I thought that every donkey knew that," courteously responded the rustic.

"You see, pa," said the gentleman's little boy, who had not taken any part in the debate, "you see, pa, if every donkey knows the difference, it's lucky you said you didn't."—Alex Sweet, in Texas Siftings.

Domestic Retrenchment.

Father (at tea)—We must retrench in every way, my dear; and you, too, Laura, must do your part.

"Yes, papa."

Father (next morning)—Had you company last night, Laura?

"Yes, papa; Mr. Billcoo was here."

"Seems to me you had very little light in the parlor."

"Yes, papa; I remembered what you said about my doing by part in retrenching."—Brooklyn Life.

Looking Out for Number One.

Bingo—You are not going to try and fire off that rusty old cannon that's been lying in the cellar for the past year, are you, Bobbie?

Bobbie—Yes, sir; I thought I would.

Bingo—Now, Bobbie, the first time you fire it off, the chances are it will burst and blow you up.

Bobbie—I thought of that, pop, and I'm going to get the little boy next door to touch it off first.—N. Y. World.

Too Great a Sacrifice.

The two had sat in moody, sullen silence for some minutes. Then she spoke.

"Before we were married, Algernon," she said, "you used to declare you could give up Heaven itself for me."

"Yes," answered Algernon, bitterly, "but I little thought you would ever ask me to give up smoking."—Chicago Tribune.

Prison Statistics.

Said the superintendent of the Texas penitentiary, at Huntville, to a newly-arrived delegate:

"You have the privilege of working at any trade you prefer."

"I'd like to keep on driving cattle in Kansas."

Another gentleman in the same institution wanted to be a sailor.—Tammany Times.

What He Would Do.

"Papa," said Jack, as he gazed at his ten cents—one week's allowance—"do you know what I would do if I was an awful rich king?"

"No, Jack. What?"

"I'd increase my allowance to a quarter a week."—Harper's Young People.

Not Surprised.

Prof. Longhair—Statistics show that Germany's proportion of suicides is larger than that of any other European country.

Miss Gotham—I don't wonder. It must be awfully wearing to have to think in German.—N. Y. Weekly.

Youthful Ambition.

Robbie—I'm going to be a pirate, like Capt. Kidd, when I grow up.

Charlie—I'm going to be a train robber, like Jesse James.

Johnnie—Well, I ain't. I'm going to keep a summer hotel, like Uncle Jake.—Truth.

The Real Ruler.

Little Miss Miff—I'd have you know that my grandfather was a general in the army!

Little Miss Tiff—Pshaw, that's nothing! Why, my own father is a policeman to-day!—N. Y. Advertiser.

From Wheel to Woe.

As bachelor a bicycle
Was Bunsby's choicest sport; but later,
When wed, his only wheeling fell
To pushing a perambulator.
—Judge.

MEDICAL ITEM.

Doctor—To the best of my judgment you are suffering from gastritis.

Patient—I knew it. I got it in the cellar fooling with the gas meter.—Texas Siftings.

She Was Up to Him.

He—My dearest, darlingest little wifey—

She—You needn't employ any of that sort of taffy, for you won't get the latch-key, no matter what you say.—Alex Sweet, in Texas Siftings.

FOLLY AS IT FLIES.

Sunday School Teacher—What is charity? Boy—It's a feeling that folks used to have before tramps got so thick.

Doctor—You must eat nothing but the plainest kind of food. Patient—When I got your last bill, I learned that I'd have to.

Visitor—I should think you would be afraid to give your children so much cake. Hostess—I am. Those are my next neighbor's boys.

She, whose father keeps a dog—Why do you bring your man with you when you call on me? Chappie—He is to walk behind me as I go out.

Clara—May I come to your wedding? Agatha—I cannot promise you that. My parents are so enraged at my choice that I hardly know whether I shall be allowed to go there myself.

"Ef I had to take some kind o' job," said Rusty Rufus, rolling over so as to turn his other side to the sun, "an' could have my choice, I think I'd like to be the private secretary of some man that's got the contract for getherin' the crop of a century plant.

"Now," said the physician, who is noted for his heavy charges, "I must take your temperature." "All right," responded the patient in a tone of utter resignation. "You have got about everything else I own. There is no reason why you shouldn't take that, too."

The baggage-smasher had dropped the trunk from the car and knocked one end of it out. "What did you let that trunk drop that way for?" exclaimed the irate owner. "I beg your pardon," responded the baggage smasher innocently; "I could have dropped it on the other end just as well if I had known you wanted it that way."

TALES THEY TELL.

Professor I. K. Miller, who was buried at Mt. Aetna, Pa., lately, had ordered that no earth be placed on his remains. In accordance with his desire a stone slab was placed over the coffin, and another one was placed across the grave near the surface.

Two little boys were sent to bed and told that they must not talk while they were undressing, however much they might be tempted to do so. Later, when their mother came to see them, one little boy was lying with the sheet crammed into his mouth, while the other was sitting up in bed and saying in a plaintive voice, "Mr. Devil, do please come and tempt Tommy to talk."

An English reformer suggests a tax upon Christian names, to be levied at baptism. Every child, according to the plan, is to be allowed one Christian name free, a moderate duty—say twenty-five cents, would be levied on the second name, a greatly increased charge, say $1.25—on the third, $6 on the fourth, and so on. On this scale the baptism of the infant prince of the house of York would have benefitted the government to the amount of more than $1,100.

The old story, good enough to be true, is revived about John Quincy Adams as a disciple of the gentle art of fishing. It is told that a Quincy client of his, whose case was to be tried on a certain morning, was unable to get his counsel to go to Boston, or to leave his fishing boat, except long enough to write a note to the judge, which, when presented, caused that worthy magistrate to announce to the court: "Mr. Adams is detained on important business." The note read: "Dear Judge: For the sake of old Isaak Walton, please continue my case until Friday. The smelt are biting and I can't leave."

THE PEOPLE OF HAWAII.

Their Homes and Their Hospitality to Stranger Guests.

"I know of no more hospitable people in the world," said Captain A. C. Alexander of Washington, "than the common people of Hawaii. If you ask for lodgings at nightfall at a native hut you are received as if you were conferring a favor, frequently the whole house, which has but one room, is set apart for you, the people going elsewhere to sleep. A chicken is slain in your honor and for your exclusive supper, and you are served by the master of the house himself. The native grass house, where it has been well built, is a very comfortable structure. It has but one room, calico curtains serving as partitions by night. At one end a standing bed place, running across the house, provides accommodations for the entire family, no matter how numerous.

"This bed consists of mats, and the covers are either of tappa cloth (which is as though you were sleeping under newspapers) or of blankets. The more prosperous people have often, besides this, an enormous bedstead curtained off and reserved for strangers, and you may see the women go to chests when you ask for hospitality and take out blankets, sheets and any number of little pillows for the bed and often a brilliant silk coverlet. The use of the dozen or so pillows puzzled me, until I found that they were intended to tuck or wedge me in so that I should not roll around in the big bed. On taking your departure the next morning it is not well to ask the cost of your accommodations, as the Hawaiian has vague ideas of prices. He might tell you $10 or $20, whereas, if you hand him seventy-five cents for yourself and guide he will be abundantly satisfied."

LOOK TO YOUR UMBRELLA.

Not That You May Lose It, But for the Comfort of Your Fellows.

A little education in the art of carrying an umbrella would scarcely be thrown away on some pedestrians. There are occasions when this implement of defense becomes a veritable weapon of offense. There are short men who hoist theirs in a shower, hold them well down to protect their hats and heads, and rush along at a good pace, regardless of those who are inconvenienced. The only thing that makes any impression on them is meeting with another like unto themselves, when there is naturally a violent collision, with rending of silk and smashing of steel ribs. There are women, too, who love the feathers in their bonnets more than they do their fellow-creatures, to judge from the selfish way in which they rush homeward in a shower with an umbrella held in front of them absolutely careless whether they run down some innocent passenge. in front of them, or poke some other in the back with an unexpected ferrule. Nor is the umbrella always harmless, even when closed. Too many men carry it under the arm, to the danger of those who share the street with them. Too many women nurse theirs as though they were babies, the handle projecting over one shoulder, to the great occasional damage and detriment of those who pass on that side. As to the girls who "score" men's silk hats with the points of their sunshades, the sufferers seldom resent very deeply a fault that is caused by a pleasant proximity, unless, indeed, the parasol should be held by a careless sister.

Jack's Pay.

Doubtless the difference of $1,000 per year between sea pay and shore pay is a matter of no moment to Admiral Walker, and nothing to do with his preference for the Asiatic squadron over duty at the naval academy; but when a subaltern is found persistently accepting sea duty when he has a right to his tour ashore it is pretty well known that he feels the need of the additional pay that goes with the former duty. An admiral ashore loses one-sixth of his full sea pay, a commodore one-fifth, a captain two-ninths, a commander one-seventh, a lieutenant commander from two-fifteenths to one-seventh, a lieutenant from three-twentieths to one-sixth, and an ensign from one seventh to one-sixth. The average is about the same for the officers of the staff.

THERE is but one way in the world to be sure of having the best paint, and that is to use only a well-established brand of strictly pure white lead, pure linseed oil, and pure colors.*

The following brands are standard, "Old Dutch" process, and are always absolutely

Strictly Pure White Lead

"Southern," "Red Seal," "Collier," "Shipman."

* If you want colored paint, tint any of the above strictly pure leads with National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

Not Sweets for the Sweet.

The mother purchased with pride and joy
A pair of gloves for her little boy.
The parcel upon the table lay,
And the father said, in a playful way,
Thinking that candy it might be:
"Sweets for the sweet, it seems to me."
The sweet young mother raised her head:
"No; kids for the kid," she softly said.

Dear Sir—I am glad to say that the use of your "Golden Medical Discovery" has saved me many doctors' bills, as I have for the past eleven years, whenever needed, been using it for the erysipelas and also for chronic diarrhea, and am glad to say that it has never failed. I have also recommended it to many of my neighbors, as it is a medicine worth recommending.

Ely's Cream Balm eis specially adapted as a remedy for catarrh which is aggravated by alkaline dust and dry winds.—W. A. Hover, Druggist, Denver.

My catarrh was very bad. For thirty years I have been troubled with it—have tried a number of remedies without relief. A druggist advised Ely's Cream Balm. I have used only one bottle and I can say I feel like a new man. I make this voluntary statement that others may know of the balm. J. W. Mathewson (Lawyer), Pawtucket, R. I.
